Delta State University, Abraka
Delta State

HUMBLE APPEAL FOR WAIVER OF OUTSTANDING COURSE (MBC 406)

Dear Sir,

I write to you with deep respect and a humble heart. I am **Israel Eyitemi Oghenevwogaga**, a supposedly graduated student of the Department of Medical Biochemistry with matriculation number **CFB/21/22/279390**.

My academic journey at Delta State University has been one of dedication and perseverance. I have successfully completed every required course for my degree, with the single **exception of MBC 406**, in which I scored 33, narrowly missing the waiver mark of 35. This course remains the only barrier between me and the completion of my studies.

While I take full responsibility for my performance, I am compelled to share the heartfelt difficulty this situation has placed on my family. My parents have sacrificially supported my education through many sessions, but at this stage, they are financially strained and cannot afford the additional fees and upkeep required for me to return and repeat this one course. The prospect of prolonging my studies under these circumstances weighs heavily on us all.

I appeal to your compassion and leadership, Sir, to kindly consider granting **a waiver for MBC 406**. This act of mercy would not only relieve my family's burden but also allow me to graduate and contribute meaningfully to society with the values I have gained from this great institution.

Thank you for your time, understanding, and humane consideration.

Yours faithfully,

Israel Eyitemi Oghenevwogaga
